

# OT Mom's

## Free Cutting Templates

By Tracey le Roux BSc (OT)

# Thank you for downloading these free cutting templates!

## I trust you will enjoy using them with your child!

I recommend printing these templates on construction paper, or any paper that is a little thicker than standard paper, which tends to be a bit floppy.

However, stay away from thick carton for novice scissor cutters.

These templates are for use with the activities and crafts suggested on my cutting activities page:  
[www.ot-mom-learning-activities.com/cutting-activities.com](http://www.ot-mom-learning-activities.com/cutting-activities.com)

Here are some suggestions for decorating the templates before cutting them out:

Color the lines before cutting out, to add brightness to your child's creation.

Use a crayon laid flat to quickly rub all over a shape.

Use the tripod fingers for an extra fine motor challenge.

Your child can also practice handwriting patterns before cutting out.

The square and triangle were painted with a food coloring wash before cutting; water color paints can work just as well.

**Bonus cutting templates** are included with my Scissor Skills E-book!

The bonus templates include instructions and templates to create specific pictures, such as a rocket, a castle and a giraffe!

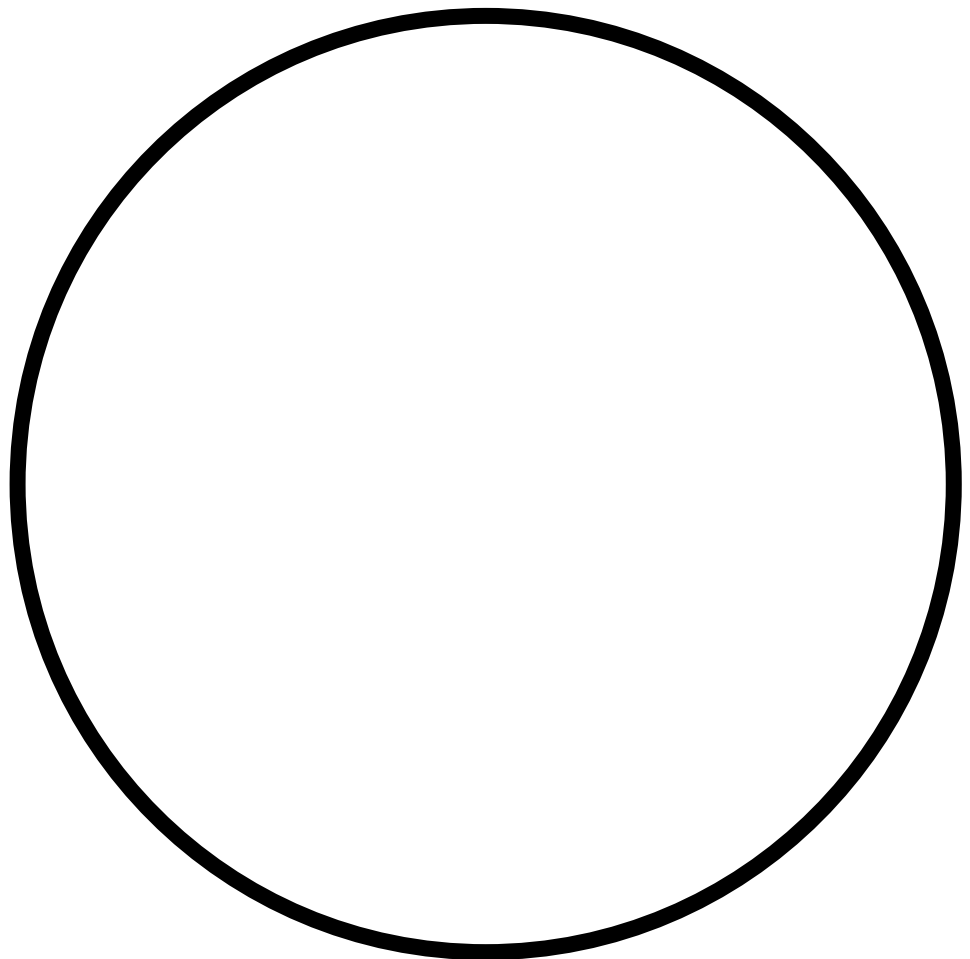

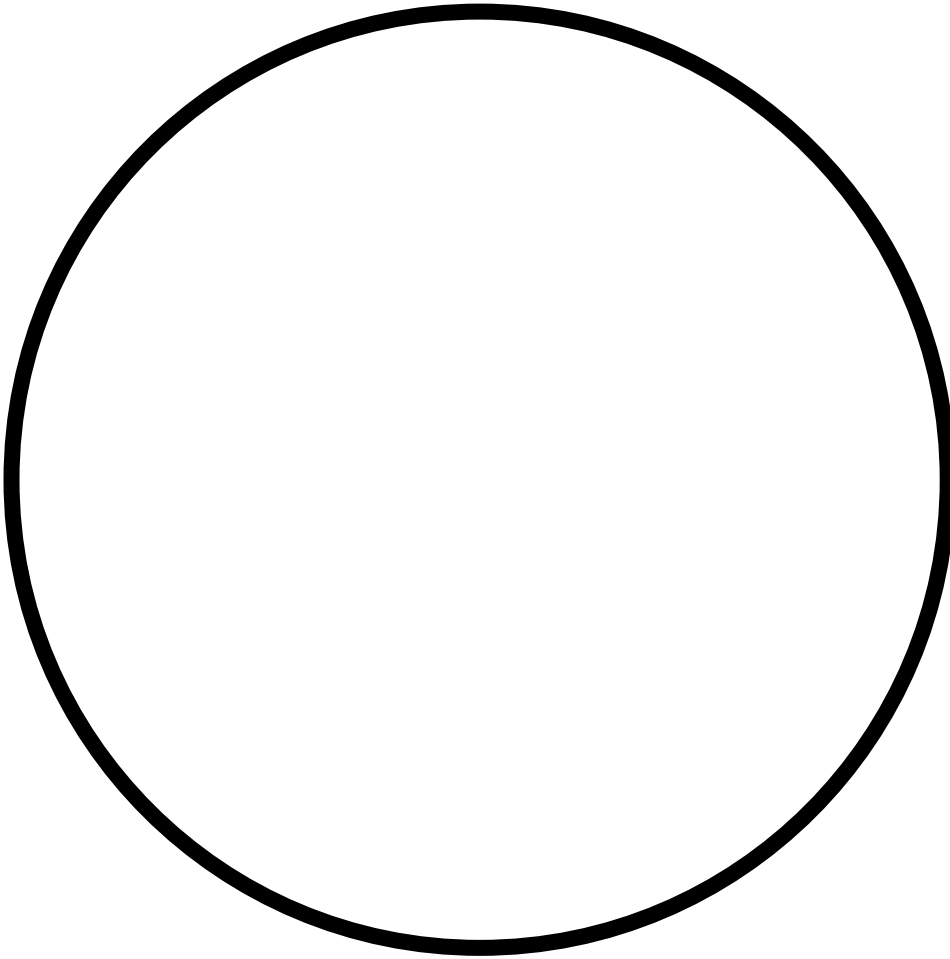

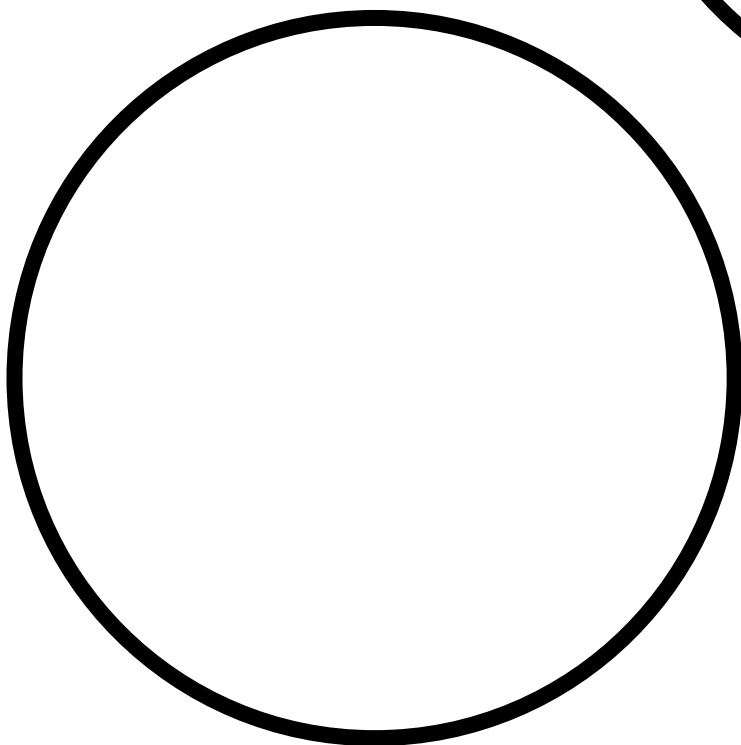

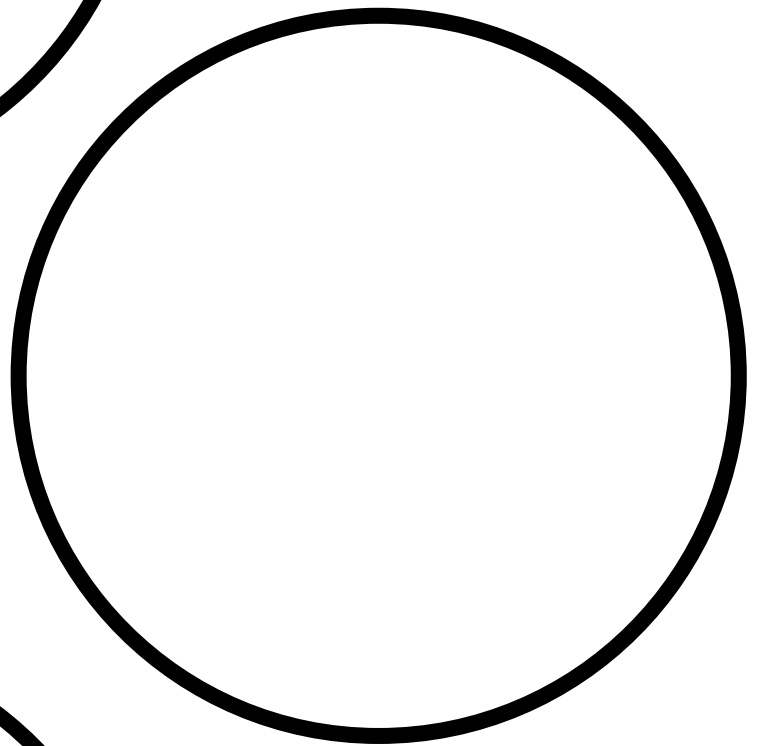

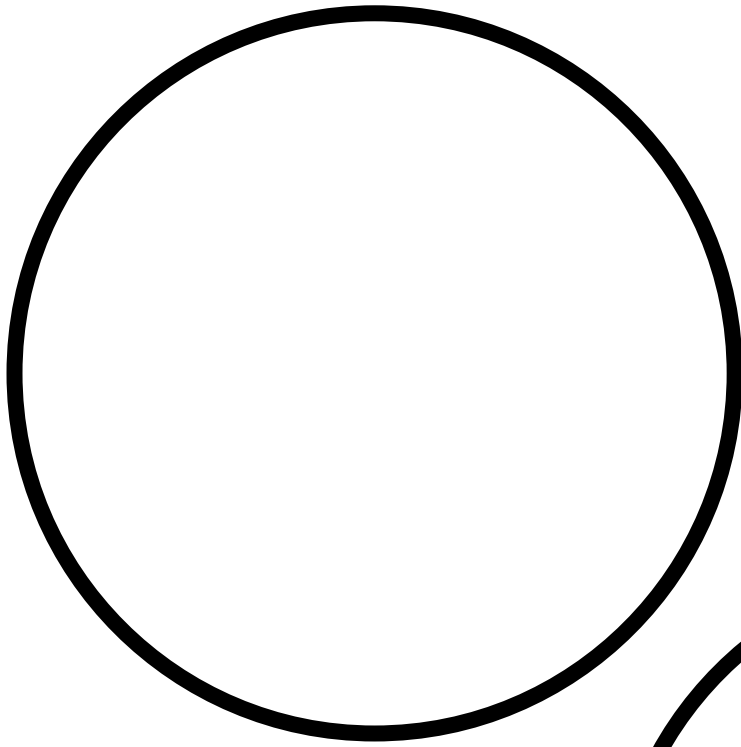

You can view the Scissor Skills E-book at [www.ot-mom-learning-activities.com/scissor-skills.html](http://www.ot-mom-learning-activities.com/scissor-skills.html)

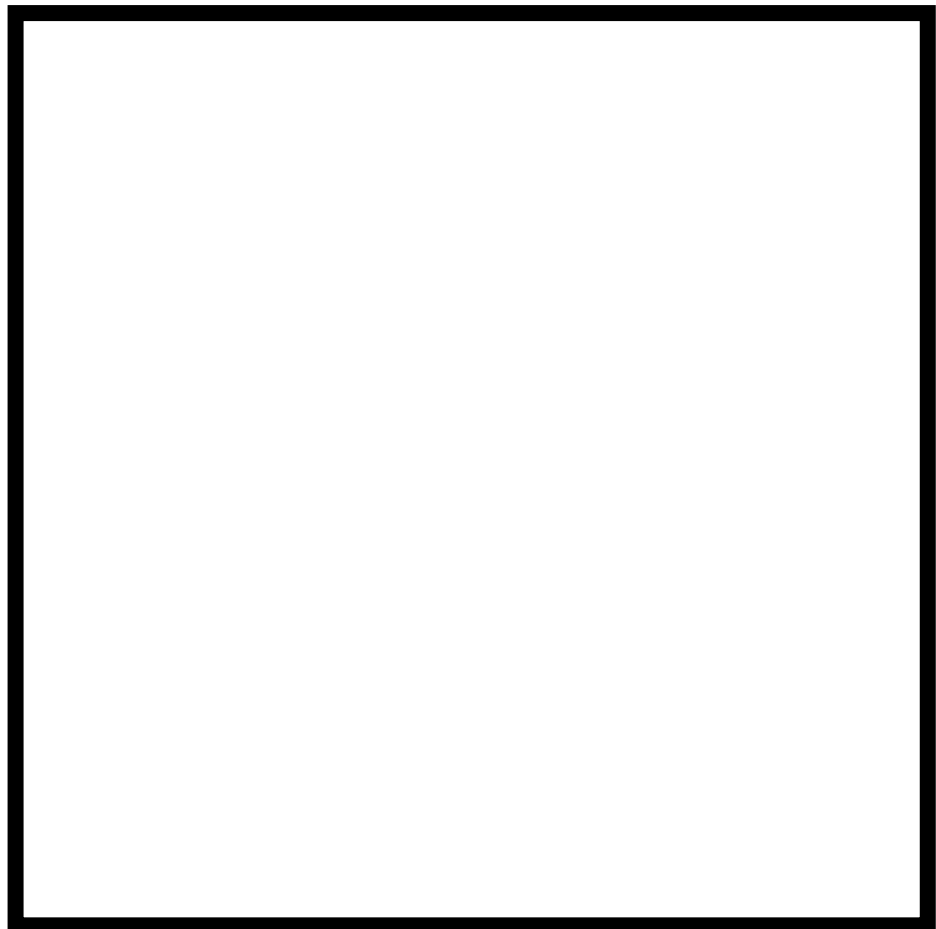

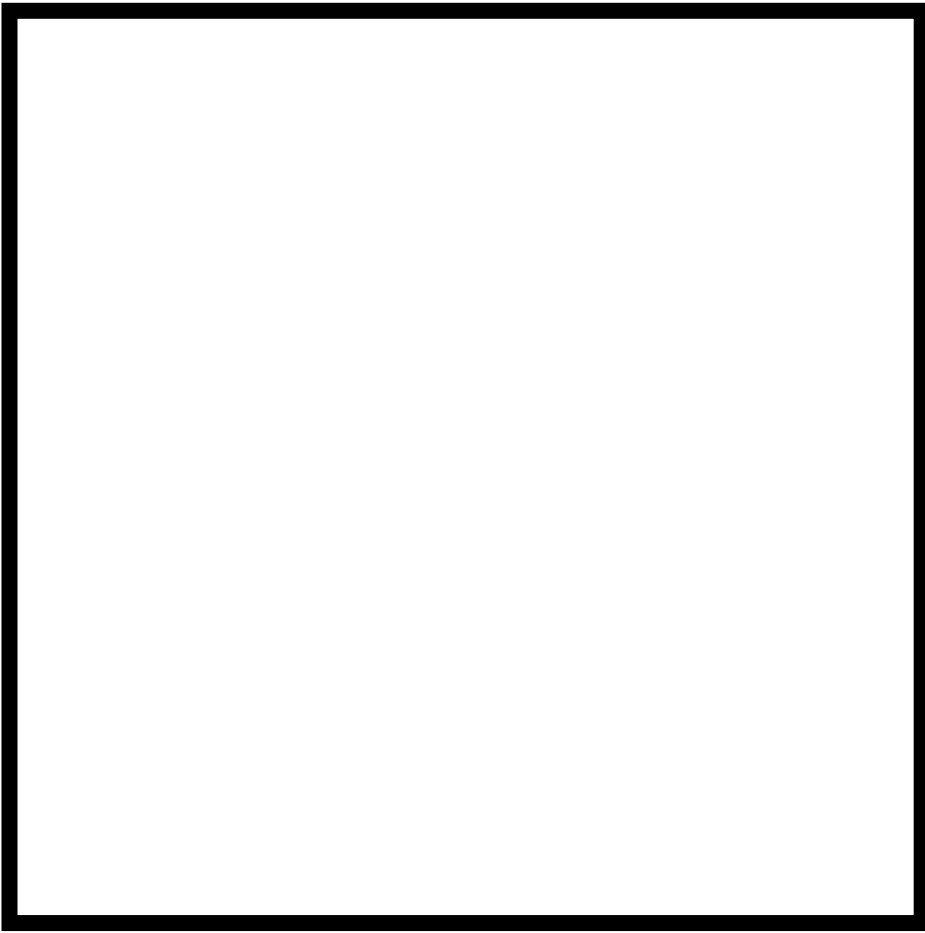

Not for resale. This free download is designed to help your child do the activities on [www.ot-mom-learning-activities.com/cutting-activities.html](http://www.ot-mom-learning-activities.com/cutting-activities.html)

You may make as many copies as you need for your personal or classroom use.
